Patients or Authorized Person's Signature

I authorize the release of any medical information necessary to process this claim and request payment of benefits either to myself or to Podiatry Associates when assignment is accepted.

Date ______________ Signature ______________________________

"People expect to get old - their teeth wear out and they get fillings and replacements; Their eyes wear out and they get glasses of all kinds; Their hearing wears out and they get hearing aids - but somehow people never expect their feet to wear out. The feet are supposed to go on forever and yet they work harder and under worse conditions then most everything. Your podiatrist considers walking a priviledge. He is dedicated to keeping you walking in comfort."
